Wastewater maintenance service... Entranosa Water & Wastewater Association provides scheduling and coordination of wastewater services as part of a maintenance contract with members. Members are set up on maintenance schedule to have their septic tanks pumped once every one to three years, depending on septic tank size, number of people in household, and usage factors - varying in charges as to frequency of pumping. If members do not know when their system was last pumped, we will schedule for pumping at the time of start up to the program.

Please refer to your water and wastewater service maintenance agreement for details about participation of this program.

Below is a list of the fee's for this program and other fees that may be associated to pumping a septic tank.

Summary of Current Wastewater / Septic Charges

Septic Program Fees	Septic Tank Size	
	1000 Gal	1500 Gal
5 year program	\$3.36	\$3.36
3 year program	\$5.04	\$5.40
2 year program	\$8.40	\$8.40
