Happy New Year!

Happy New Year!

The Entranosa Board of Directors and Crew Would Like to Wish Everyone a Happy & Healthy New Year!

2020—Busy Year for Entranosa

When East

Mountain water wells started drying up last May, residents sought stability by reaching out to Entranosa. The loss of wells continued throughout the summer. As a result, Entranosa experienced an increased number of new members, installed new meters and extended water lines and increased bulk water sales. All with reduced staff due to COVID-19....

Entranosa Water & Wastewater Association
Office: (505) 281-8700

Emergency: (505) 604-5935 www.entranosawater.com

Office Hours:

Monday 9:00 am – 4:30 pm

Tuesday – Friday 8:00 am – 4:30 pm

Entranosa is an equal-opportunity employer.

- ◇ **Reliably supply quality drinking water at a reasonable price to our membership, such that the Association is self-sustaining**
- ◇ **Promote water conservation**
- ◇ **Provide leadership for our Community concerning water and wastewater issues**
- ◇ **Protect our ground water resources through environmentally responsible business practices**
- ◇ **Pursue water & wastewater service opportunities in the East Mountain and Estancia Basin Regions**

Entranosa Water's 12/29/20 Hardness Reading: 13 grains

Average Water Usage: Dec: 4,017; Nov: 7,097 gallons

2020 In Photos

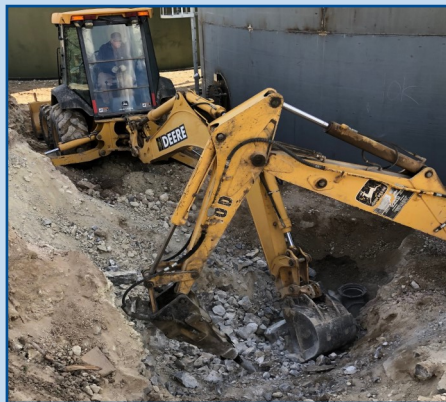

The East Pine Canyon well is finally complete, ready for 2021's pumping season. It is Entranosa's fifth well.

The new Section 6 tank is being filled for a hydro test. In the photo below, the tank is full and overflowing. The tank passed its hydro test and painting begins January 5th.

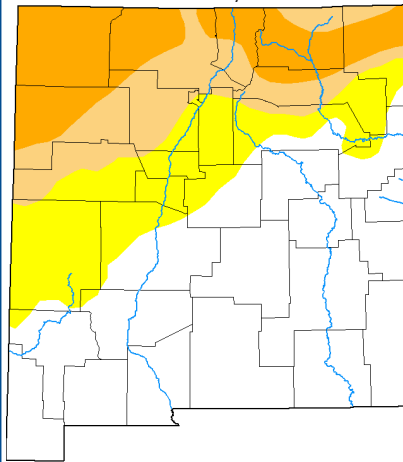

Building the Section 6 storage tank required heavy machinery to hammer out a large amount of rock. It was also tricky to install piping.

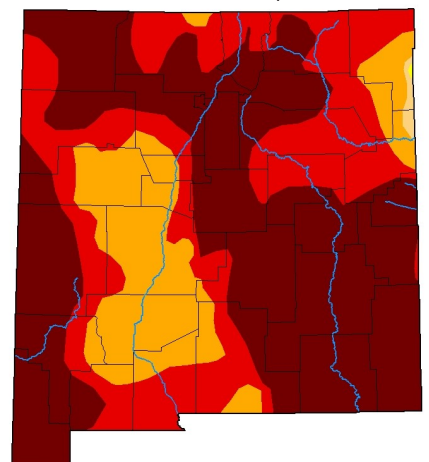

2021 Shaping Up to Be Challenging

With an anticipated poor snow pack this winter, 2021 could be a very challenging water year. Entranosa's continued investment in new water sources, storage and to update infrastructure should help, but conservation from the membership is critical. The drought maps below tell the story.
